

LEADERSHIP DEVELOPMENT

Associate of Applied Science Degree 10-196-1

The Leadership Development Associate of Applied Science degree provides learners with training in leadership, human relations, quality, health and safety, problem solving and team building, organizational development, supervision, project management, and lean and six sigma. With this degree, you will be prepared to become a department manager, supervisor or team leader. Whether you want to work in manufacturing, banking, retail, education, government or health care, these skills will prepare you to be an effective leader. This program is tailored to working adults and is offered face-to-face or online.

The Leadership Development degree is built on a business meta major which includes classes that are part of several programs at the college and should provide transfer into or attachment to any of these other programs.

Program Outcomes

- Utilize continuous improvement strategies to achieve performance excellence
