

SUPPLY CHAIN ASSISTANT

One-Year Embedded Technical Diploma 31-182-1

This Supply Chain Assistant Technical Diploma provides you with the basic skills needed to perform entry level work in supply chain management. This credential is the pathway to the Associate of Science degree in Supply Chain Management. Functions such as logistics, purchasing, or material management all encompass part of a supply chain. Supply chains are led and managed by people who enjoy working with others and analyzing data. Without supply chain management, you could not get the products or services you need every day.

Upon completion of this technical diploma, students will:

- Implement supply management practices in a global environment.
- Demonstrate operations management techniques across product and service industries.
- Analyze logistic interfaces and activities in a supply chain.
- Evaluate demand management techniques and customer service policies.
